Show Highlights

- President Niko Cacos, CEO, and Director - Blue Sky Uranium Corp., winner of the Explorer of the Year Award, makes his show debut.
- Headquartered in Argentina, Blue Sky Uranium Corp. is a leader in uranium discovery in the region.
- The Blue Sky mission involves rewarding loyal shareholders with exceptional returns via a portfolio of high uranium yielding, low-cost producers.
- Given the current portfolio that includes rights to over one million acres of property, their team is on track to outperform investor's expectations.
- The Company is a member of the Grosso Group, the most prestigious in Argentina and Joseph Grosso is a very good friend of the show.
- Listeners are encouraged to listen to Mr. Grosso's Golden Arrow interview Golden Arrow, Executive Chairman, CEO, & President, of Golden Arrow.
- Blue Sky's flagship Amarillo Grande Project was an in-house discovery with the potential to become a key domestic supplier of uranium.
- The Ivana deposit, at Amarillo recently completed a drilling program via 61 holes drilled with positive results.
- Amarillo Grande has characteristics of sandstone-type uranium-vanadium deposits.
- The Amarillo Grande project includes solid vanadium potential with estimates of vanadium content running as high as 200% the uranium content.
- Some early drill results indicate even higher vanadium content levels according to reports.
- This was irrelevant until the amazing Vanadium bull run of 2017/ 2018 where price has skyrocketed over 4x from around \$5 to \$25 as of this interview.
- Company literature indicates ongoing mineralogical, metallurgical, and process engineering studies at the Saskatchewan Research Council (SRC).
- Listeners are encouraged to direct their web browsers to goldseek.com and Bloomberg.com and enter the ticker symbol BSK.V – OTC: BKUCF.

President Niko Cacos, CEO, and Director - Blue Sky Uranium Corp. winner of the Explorer of the Year Award, makes his show debut. Headquartered in Argentina, Blue Sky Uranium Corp. is a leader in uranium discovery in the region. The Blue Sky mission involves rewarding loyal shareholders with exceptional returns via a portfolio of high uranium yielding, low-cost producers. Given the current portfolio that includes rights to over one million acres of property in two provinces in Argentina, their team is on track to outperform investor's expectations. The Company is a member of the

Grosso Group, the most prestigious in Argentina and of course, Joseph Grosso is a very good friend of the show, listeners are encouraged to listen to Mr. Grosso's Golden Arrow interview in the show archives Golden Arrow, Executive Chairman, CEO, & President, of Golden Arrow. Blue Sky's flagship Amarillo Grande Project was an in-house discovery with the potential to become a key domestic supplier of uranium to the growing Argentine market and a new international market. The Ivana deposit, at Amarillo recently completed a drilling program via 61 holes drilled with positive results. Amarillo Grande has characteristics of sandstone-type uranium-vanadium deposits the Amarillo Grande project includes solid vanadium potential with estimates of vanadium content running as high as 200% the uranium content, according to Caesarsreport.com. In fact, some early drill results indicate even higher vanadium content levels according to reports. This was irrelevant until the amazing Vanadium bull run of 2017/ 2018 where price has skyrocketed over 4x from around \$5 to \$25 as of this interview. Blue Sky is also active in Canada where company literature indicates ongoing mineralogical, metallurgical, and process engineering studies at the Saskatchewan Research Council (SRC). To find out more about Blue Sky Uranium Corp., listeners are encouraged to direct their web browsers to goldseek.com and Bloomberg.com and enter the ticker symbol BSK.V – OTC: BKUCF
