1. NATURE OF OPERATIONS

The Company was incorporated under the Business Corporation Act of British Columbia on November 30, 2005 as Mulligan Capital Corp. On May 16, 2006, the Company received final receipts for a prospectus and became a reporting issuer in British Columbia and Alberta. On June 27, 2006, the Company completed its initial public offering (the "Offering") and on June 28, 2006, the Company listed its common shares on the TSX Venture Exchange (the "TSXV") as a capital pool company. On February 7, 2007, the Company completed its qualifying transaction (the "QT") and was upgraded to Tier II status on the TSXV. The Company also changed its name to Blue Sky Uranium Corp. to reflect its business as a junior uranium exploration company.

As of June 30, 2007, the Company is in the process of exploring mineral properties in Canada, Argentina and Colombia. On the basis of information to date it has not yet determined whether these properties contain economically recoverable ore reserves. The underlying value of the mineral properties and related deferred costs is entirely dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain the necessary financing to complete development and upon future profitable production. Mineral property interests represent costs incurred to date, less amounts amortized and/or written-off and do not necessarily represent present or future values.

2. SIGNIFICANT ACCOUNTING POLICIES

The interim consolidated financial statements of the Company have been prepared by management in accordance with Canadian generally accepted accounting principles. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates. The consolidated financial statements have, in management's opinion, been properly prepared using careful judgement within reasonable limits of materiality. These interim consolidated financial statements should be read in conjunction with the most recent annual consolidated financial statements. The significant accounting policies follow that of the most recently reported annual consolidated financial statements.

New accounting policies

Effective January 1, 2007, the Company adopted the following new accounting standards issued by the Canadian Institute of Chartered Accountants ("CICA").

(a) Section 3855, *Financial Instruments – Recognition and Measurement* and Section 3861, *Financial Instruments – Disclosure and Presentation*, prescribe the criteria for recognition and presentation of financial instruments on the balance sheet and the measurement of financial instruments according to prescribed classifications. These sections also address how financial instruments are measured subsequent to initial recognition and how the gains and losses are recognized.

The Company is required to designate its financial instruments into one of the following five categories: held for trading; available for sale; held to maturity; loans and receivables; and other financial liabilities. All financial instruments are to be initially measured at fair value. Financial instruments classified as held for trading or available for sale are subsequently measured at fair value with any change in fair value recorded in net earnings and other comprehensive income, respectively. All other financial instruments are subsequently measured at amortized cost.

(Unaudited – Expressed in Canadian Dollars)

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company has designated its financial instruments as follows:

(i) Cash and short-term investments are classified as *"Available-for-sale"*. Due to their short-term nature, their carrying value is equal to their fair value.

(ii) Amounts receivable and prepaids are classified as *"Loans and Receivables"*. These financial assets are recorded at values that approximate their amortized cost using the effective interest method.

(iii) Accounts payable and accrued liabilities are classified as *"Other Financial Liabilities"*. These financial liabilities are recorded at values that approximate their amortized cost using the effective interest method.

As a result of adopting Section 3855, effective January 1, 2007 interest accrued on short-term investments in the amount of $2,250 was reclassified from amounts receivable to short-term investments.

(b) Section 1530, *Comprehensive Income,* introduces a new financial statement "Statement of Comprehensive Income" and provides guidance for the reporting and display of other comprehensive income. Comprehensive income represents the change in equity of an enterprise during a period from transactions and other events arising from non-owner sources including gains and losses arising on translation of self-sustaining foreign operations, gains and losses from changes in fair value of available for sale financial assets and changes in the fair value of the effective portion of cash flow hedging instruments. The Company has not recognized any adjustments through other comprehensive income for the six months ended June 30, 2007.

(c) Section 3865, *Hedges* specifies the criteria under which hedge accounting may be applied, how hedge accounting should be performed under permitted hedging strategies and the required disclosures. This standard did not have an impact on the Company for the six months ended June 30, 2007.

Comparative Figures

Certain of the prior period comparative figures have been reclassified to conform to the current period's presentation.

3. SHORT-TERM INVESTMENTS

As at June 30, 2007 and December 31, 2006, the Company held short-term investments comprised of the following:

	June 30, 2007	
	Maturity	**Fair Value $**
12 month term deposit - Prime minus 2.35% annual interest rate ($400,000 principal)	November 15, 2007	409,040

		3,430,098

(Unaudited – Expressed in Canadian Dollars)

3. SHORT-TERM INVESTMENTS (continued)

	December 31, 2006	
	Maturity	**Principal $**
12 month term deposit - Prime minus 2.35% annual interest rate	November 15, 2007	500,000

All term deposits are fully redeemable in full or portion at the Company's option without penalty. Interest is paid on amounts redeemed subsequent to 30 days from the date of investment. The principal and interest are unconditionally guaranteed by the Bank of Montreal.

a) Eagle Lake Property

On December 14, 2006, the Company and Eagle Plains Resources Ltd. ("Eagle Plains"), a public company trading on the TSXV, entered into an option agreement (the "Agreement") under which Eagle Plains granted an option to the Company to earn a 60% undivided interest in Eagle Plains' undivided 100% interest in the Eagle Lake group of mineral claims (the "Eagle Lake Property"), covering 8,165 hectares in the La Ronge area of north-central Saskatchewan, Canada. To exercise the option and acquire the 60% interest, the Company must issue a total of one million shares, make total cash payments of $35,000 and incur a minimum of $5 million of exploration expenditures on the Eagle Lake Property as follows:

(i) The Agreement required

(a) the issue of 50,000 common shares and a cash payment of $10,000 on or before the date which was the later of the date of delivery of a NI43-101 technical report (the “Report”) and the date of receipt of TSXV approval of the QT (the “Final Exchange Bulletin”).

(b) the issue of a further 50,000 common shares and a cash payment of $25,000 on or before the later of the date of execution of the Agreement and the Final Exchange Bulletin

(c) the issue of 100,000 common shares on or before the later of December 31, 2006 and the Final Exchange Bulletin.

The later of the two dates in (a), (b) and (c) above was February 7, 2007, which was the effective date the Agreement was accepted by the TSXV as the Company’s QT.

In addition to the above requirements, the Company must maintain the Eagle Lake Property in good standing in accordance with applicable mining laws and make any and all governmental payments required by such law including, but not limited to, annual sustaining mineral claims.

The Eagle Lake Property is subject to a 1% net smelter royalty to a third-party, which may be purchased at any time for $1 million.

b) Karin Lake Property

On February 14, 2007, the Company entered into a letter of intent with Eagle Plains (the “Karin Lake LOI”) under which the Company proposed to acquire the option to earn a 60% interest in mineral claims (the “Karin Lake Property’) located in the La Ronge area of north-central Saskatchewan, Canada, by issuing 50,000 common shares and paying $107,795 cash. The Company may maintain the option by incurring a total of $2.5 million in expenditures and issuing a total of 650,000 common shares, as follows:

Date	Expenditures $	Shares #
December 31, 2007 (incurred)	100,000	100,000

(Unaudited – Expressed in Canadian Dollars)

4. MINERAL PROPERTY INTERESTS (continued)

b) Karin Lake Property (continued)

Subsequent to earning its 60% interest, the Company and Eagle Plains shall form a joint venture for further exploration of the property, in which each party provides funding in proportion to its interest. Either party's interest will be diluted if it does not contribute the appropriate proportion of funding to the joint venture. Any party diluting below 10% equity interest in the joint venture will receive a 5% net profits royalty interest in lieu of such equity interest. On May 29, 2007 the Company signed an option agreement that received approval from the TSX-V on July 3, 2007.

c) Santander and Norte de Santander Projects

During the six months ended June 30, 2007, the Company entered into two option agreements to acquire 100% interests in two uranium projects in Colombia. One project, covering 5,499 hectares, is located in the department of Santander, (the "Santander Project"). The other project, covering 9,592 hectares, is located in the department of Norte de Santander (the "Norte de Santander Project"). Under the terms of the letter agreements the Company must make staged cash payments to the vendor over four years totalling US $414,080 on each project, as follows:

Date	**Santander Project US $**	**Norte de Santander Project US $**
April 12, 2007 (paid)	-	5,000
April 17, 2007 (paid)	5,000	-

March 12, 2011	324,080	324,080
	414,080	414,080

The Company may terminate either of the agreements at any time. During the term of the agreements, the Company will be responsible for government taxes totalling 218,165,607 Colombian pesos (approximately $115,000) per annum.

Each project is also subject to a 3% yellow cake royalty to a maximum of US $1.1 million.

d) Santa Barbara Property

Effective May 8, 2007 the Company entered into a letter of intent with Argentina Uranium Corp. ("Argentina") to earn a 75% interest in the 60,000 hectare Santa Barbara uranium property in the Province of Rio Negro, located in the northern portion of the Patagonia region of Argentina. In order to earn a 75% undivided interest in the Santa Barbara property the Company must maintain the property in good standing, complete CDN $3.0 million in exploration expenditures over 4 years, issue a total of 400,000 shares to Argentina Uranium as follows:

(Unaudited – Expressed in Canadian Dollars)

4. MINERAL PROPERTY INTERESTS (continued)

a) During the six months ended June 30, 2007, the Company

(i) completed a brokered private placement in which it issued a total of 2,000,000 units at $1.00 per unit for aggregate gross proceeds of $2,000,000. Each unit consisted of one common share in the capital of the Company and one half of one transferable common share purchase warrant. Each whole warrant entitles the holder to acquire one additional common share at an exercise price of $1.30 per common share until March 23, 2009.

5. SHARE CAPITAL (continued)

The underwriters received a cash commission equal to 8% of the gross proceeds of the sale of units under the placement and agent's options (each an “Agent’s option”) entitling them to subscribe for 200,000 units (each an "Agent's Unit") at an exercise price of $1.00 per Agent's Unit until March 23, 2009. Each Agent's Unit will consist of one common share and one half of one non-transferable common share purchase warrant (an "Agent's Warrant"), each whole Agent's Warrant entitling the Agent to acquire one additional common share until March 23, 2009 at an exercise price of $1.30 per common share. In addition, the underwriter received a corporate finance fee payable by the issuance of 60,000 common shares and an administration fee of $5,000.

The fair value assigned to warrants and Agent’s Options was as follows:
i) value assigned to 1,000,000 warrants was $210,115, net of share issue costs of $49,885.
ii) value assigned to 200,000 Agent’s Options was $112,700.

The Black-Scholes Pricing Model was used to value the warrants and Agent’s Options. The warrants and Agent’s Options were valued at $0.26 and $.56 respectively, based on the following assumptions: dividend yield 0%, risk-free rate 4.0%, expected volatility 89% and expected life of 12 months.

(ii) completed a private placement in which it issued a total of 1,300,000 units at $1.00 per units for aggregate gross proceeds of $1,300,000. The placement included a brokered portion of 1,270,000 units and a non-brokered portion of 30,000 units. Each unit consisted of one common share in the capital of the Company and one half of one transferable common share purchase warrant. Each whole warrant entitles the holder to acquire one additional common share at an exercise price of $1.30 per common share until March 23, 2009.

In addition, the underwriters received a cash commission equal to 8% of the gross proceeds of the sale of units under the brokered portion of the placement and agent's options (each an “Agent’s Option”) entitling the Agent to subscribe for 127,000 units (each an "Agent's Unit") at an exercise price of $1.00 per Agent's Unit until March 23, 2009. Each Agent's Unit will consist of one common share and one half of one non-transferable common share purchase warrant (an "Agent's Warrant"), each whole Agent's Warrant entitling the Agent to acquire one additional common share until March 23, 2009 at an exercise price of $1.30 per common share.

The fair value assigned to warrants and Agent’s Options was as follows:
i) value assigned to 650,000 warrants was $126,070, net of share issue costs of $29,930
ii) value assigned to 127,000 Agent’s Options was $57,277

The Black-Scholes Pricing Model was used to value the warrants and Agent’s Options. The warrants and Agent’s Options were valued at $0.24 and $.41 respectively, based on the following assumptions: dividend yield 0%, risk-free rate 4.0%, expected volatility 90% and expected life of 12 months.

5. SHARE CAPITAL (continued)

b) Stock options and stock based compensation

The Company has established a rolling stock option plan (the "Plan"), in which the maximum number of common shares which can be reserved under the Plan is 10% of the issued and outstanding common shares of the Company. The exercise price of the options is set at the Company's closing shares price on the day before the grant date, less allowable discounts in accordance with the policies of the TSXV.

A summary of the changes in the number of stock options outstanding for the six months ended June 30, 2007 is as follows:

	Number	Weighted Average Exercise Price $
Balance, beginning of period	1,000,000	0.10
Granted	670,000	0.95
Balance, end of period	1,670,000	0.44

During the six months ended June 30, 3007 the Company granted 670,000 stock options (2006 – 1,000,000) and recorded stock based compensation expense of $298,665 (2006 - $60,000) with a corresponding increase to contributed surplus. The fair value of stock options granted is estimated on the dates of grants using the Black-Scholes Option Pricing Model with the following assumptions used for the grants made during the period:

Risk-free interest rate	4%
Estimated volatility	88% - 89%
Expected life	1.5 - 2.5 years
Expected dividend yield	0%

Stock options outstanding and exercisable at June 30, 2007, are as follows:

Number	Exercise Price	Expiry Date
1,000,000	$0.10	June 28, 2011
350,000	$0.90	January 31, 2010
320,000	$1.00	June 1, 2012
1,670,000		

The weighted average fair value per share of stock options granted during the six months ended June 30, 2007 was $0.46 per share (2006 - $0.06). Option pricing models require the use of estimates and assumptions including the expected volatility. Changes in the underlying assumptions can materially affect the fair value estimates and, therefore, existing models do not necessarily provide reliable measure of the fair value of the Company's stock options.
