1. NATURE OF OPERATIONS

The Company was incorporated under the Business Corporation Act of British Columbia on November 30, 2005 as Mulligan Capital Corp. On May 18, 2006, the Company received final receipts for a prospectus and became a reporting issuer in British Columbia and Alberta. On June 27, 2006 the Company completed its initial public offering (the "Offering") and on June 28, 2006 the Company listed its common shares on the TSX Venture Exchange (the "TSX-V") as a capital pool company. On February 7, 2007, the Company completed its qualifying transaction (the "QT") and was upgraded to Tier II status on the TSX-V. The Company also changed its name to Blue Sky Uranium Corp. to reflect its business as a junior uranium exploration company.

As of June 30, 2009, the Company is in the process of exploring mineral properties in Argentina. On the basis of information to date it has not yet determined whether these properties contain economically recoverable ore reserves. The underlying value of the mineral properties is entirely dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain the necessary financing to complete development and upon future profitable production. Mineral property interests represent acquisition costs incurred to date, less amounts amortized and/or written-off and do not necessarily represent present or future values.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The interim consolidated financial statements of the Company have been prepared by management in accordance with Canadian generally accepted accounting principles. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates. The consolidated financial statements have, in management's opinion, been properly prepared using careful judgment within reasonable limits of materiality.

As these unaudited interim consolidated financial statements do not contain all of the disclosures required by Canadian GAAP, they should be read in conjunction with the notes to the Company's audited consolidated financial statements for the year ended December 31, 2008.

The accounting policies followed by the Company are set out in note 3 to the audited consolidated financial statements for the year ended December 31, 2008, and have been consistently followed in the preparation of these consolidated financial statements except that the Company has adopted the following CICA standard effective January 1, 2009.

Recent Accounting Pronouncements

Goodwill and Intangible Assets

CICA Handbook Section 3064, *Goodwill and Intangible Assets*, establishes revised standards for recognition, measurement, presentation and disclosure of goodwill and intangible assets. Concurrent with the introduction of this standard, the CICA withdrew EIC 27, Revenues and Expenses during the preoperating period. As a result of the withdrawal of EIC 27, companies will no longer be able to defer costs and revenues incurred prior to commercial production at new mine operations. On January 1, 2009, the Company adopted these changes, with no impact on its consolidated financial statements.

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

Credit Risk and Fair Value of Financial Assets and Liabilities

In January 2009, the CICA issued EIC-173, *Credit Risk and the Fair Value of Financial Assets and Financial Liabilities*. The EIC provides guidance on how to take into account credit risk of an entity and counterparty when determining the fair value of financial assets and financial liabilities, including derivative instruments. This standard is effective for our fiscal year beginning January 1, 2009. Adoption of this EIC did not have a significant effect on the company's financial statements for the period ended June 30, 2009.

Mining Exploration Costs

In March 2009, the CICA issued EIC-174, *Mining Exploration Costs.* The EIC provides guidance on the accounting and the impairment review of exploration costs. This standard is effective for our fiscal year beginning January 1, 2009. The application of this EIC did not have an effect on the company's financial statements for the period ended June 30, 2009.

Business combinations, consolidated financial statements and non-controlling interest

In January 2009, the CICA issued CICA Handbook Section 1582, *Business Combinations*, Section 1601, *Consolidations*, and Section 1602, *Non-controlling Interests*. These sections replace the former CICA Handbook Section 1581, *Business Combinations* and Section 1600, *Consolidated Financial Statements* and establish a new section for accounting for a non-controlling interest in a subsidiary. CICA Handbook Section 1582 establishes standards for the accounting for a business combination, and states that all assets and liabilities of an acquired business will be recorded at fair value. Obligations for contingent considerations and contingencies will also be recorded at fair value at the acquisition date. The standard also states that acquisition-related costs will be expensed as incurred and that restructuring charges will be expensed in the periods after the acquisition date. It provides the Canadian equivalent to IFRS 3, *Business Combinations* (January 2008). The section applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after January 1, 2011.

CICA Handbook Section 1601 establishes standards for the preparation of consolidated financial statements.

CICA Handbook Section 1602 establishes standards for accounting for a non-controlling interest in a subsidiary in the preparation of consolidated financial statements subsequent to a business combination. It is equivalent to the corresponding provisions of IFRS International Accounting Standards ("IAS") 27, Consolidated and Separate Financial Statements (January 2008).

CICA Handbook Section 1601 and Section 1602 apply to interim and annual consolidated financial statements relating to fiscal years beginning on or after January 1, 2011. Earlier adoption of these sections is permitted as of the beginning of a fiscal year.

All three sections must be adopted concurrently. The Company is currently evaluating the impact of the adoption of these sections.

3. CHANGE IN ACCOUNTING POLICY

During the year ended December 31, 2008, the Company retrospectively changed its accounting policy for exploration expenditures to be more relevant. Prior to the year ended December 31, 2008, the Company capitalized all such costs to mineral properties held directly or through an investment and would only write down capitalized costs if the property was abandoned or if the capitalized costs were not considered to be economically recoverable.

Exploration expenditures are now charged to earnings as they are incurred until the property reaches development stage. All direct costs related to the acquisition of resource property interests will continue to be capitalized. Development expenditures incurred subsequent to a development decision, and to increase or to extend the life of existing production, are capitalized and will be amortized on the unit-of-production method based upon estimated proven and probable reserves.

The Company has accounted for this change in accounting policy on a retrospective basis. The impact of this change on the previously reported June 30, 2008 consolidated financial statements is as follows:

	As previously reported $	Restatement $	As restated $
Mineral property interests as at June 30, 2008	415,347	(322,537)	92,810
Exploration expense for the period ended June 30, 2008	358,500	500,291	858,791

a) Santa Barbara Property

Effective May 8, 2007 the Company entered into a letter of intent with Argentina Uranium Corp. (“Argentina Uranium”) to earn a 75% interest in the 60,000 hectare Santa Barbara uranium property in the Province of Rio Negro, located in the northern Patagonia region of Argentina.

On July 8, 2008, the Company issued 8,295,000 shares at a fair price of $0.29 per share in exchange for 100% of the issued shares of Argentina Uranium. As a result of the acquisition of Argentina Uranium, the Company owns 100% of the property and the terms of the May 8, 2007 letter of intent are no longer applicable.

b) Anit Property

In January 2008 the Company signed a letter of intent to earn a 75% interest in the 128,689 hectare "Anit" uranium property in the Province of Rio Negro, Argentina. In order to earn a 75% undivided interest in the Anit property the Company had to complete $2.0 million in exploration expenditures over 4 years. During year one there was a firm commitment to complete $100,000 of exploration expenditures. After completing the expenditure commitments, the parties would form a 75/25 joint venture. As a result of the acquisition of Argentina Uranium, the Company owns 100% of the property and the terms of the Anit letter of intent are no longer applicable.

6. SHARE CAPITAL (continued)

a) During the period ended June 30, 2009:

i) The Company completed a non-brokered private placement consisting of 7,000,000 units at a price of $0.10 per unit for gross proceeds of $657,452 net of share issue costs of $42,548. Each Unit consisted of one common share and one share purchase warrant. Each warrant entitles the holder thereof to purchase one additional common share in the capital of the company at a price of $0.20 per share for 18 months. The fair value assigned to the warrants was $217,207. The warrants were valued using the Black-Scholes Pricing Model at $0.04 per warrant on the following assumptions: dividend yield 0%, risk-free rate 0.84%, expected volatility 135% and expected life of 1.15 years. The securities are subject to a 4 month hold period.

b) Stock options and stock-based compensation

The Company has established a rolling stock option plan (the "Plan"), in which the maximum number of common shares which can be reserved under the Plan is 10% of the issued and outstanding common shares of the Company. The exercise price of the options is set at the Company's closing shares price on the day before the grant date, less allowable discounts in accordance with the policies of the TSX-V.

During the six months ended June 30, 2009, the Company granted 2,115,000 stock options (2008 – 100,000) and recorded stock-based compensation expense of $195,620 (2008 - $19,010) with a corresponding increase to contributed surplus. The stock options granted vest immediately and are subject to a four month hold period and exercisable for a period of five years. The fair value of stock options granted is estimated on the dates of grants using the Black-Scholes Option Pricing Model with the following assumptions used for the grants made during the period:

	June 30, 2009	**June 30, 2008**
Risk-free interest rate	0.84%	3.27%
Estimated volatility	112%	82%
Expected life	3	2.2 years

8. RELATED PARTY TRANSACTIONS

a) Effective March 1, 2007 the Company engaged Grosso Group Management Ltd. (“Grosso Group”) to provide services and facilities to the Company. The Grosso Group is a private company owned by the Company, IMA Exploration Inc. (“IMA”) and Golden Arrow Resources Corporation (“Golden Arrow”), each of which owns one share. The Grosso Group provides its shareholder companies with geological, corporate development, administrative and management services. The shareholder companies pay monthly fees based upon a pro-rating of the Grosso Group’s costs including its staff and overhead costs among each shareholder company with regard to the mutually agreed average annual level of services provided to each shareholder company. The Grosso Group services contract also provides that, in the event the services are terminated by a member company, a termination payment would include three months of compensation and any contractual obligations that the Grosso Group undertook for the company, up to a maximum of $500,000. The Company has significant influence over the Grosso Group and therefore it has been accounted for using the equity method.

During the six months ended June 30, 2009, the Company incurred fees of $191,870 (2008 - $168,395) from the Grosso Group: $209,340 (2008 - $123,000) was paid in monthly installments and $17,470 is included in accounts receivable as a result of a review of the allocation of the Grosso Group costs to the member companies for the period (2008 - $45,395 is included in accounts payable). As at June 30, 2009, a $50,000 deposit to the Grosso Group is included in prepaid expenses.

b) During the six months ended June 30, 2009, the Company incurred $10,456 (2008 - $4,800) for geological consulting services, including travel expenses, provided by a private corporation owned by a director of the Company.

c) During the six months ended June 30, 2009, the Company incurred fees of $Nil (2008 - $8,470) for consulting and management services provided by a director of the Company.

d) Effective May 1, 2007, the Company entered into an agreement with IMA to pay a monthly fee for the services provided IMA’s Chief Executive Officer. For the six months ended June 30, 2009, the Company paid $Nil (2008 - $5,000) to IMA for the services. This agreement was terminated on June 30, 2008.

All of the related party transactions and balances in these consolidated financial statements arose in the normal course of operations and are measured at the exchange amount, which is the amount of consideration established and agreed to by the related parties.
