NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS
FOR THE SIX MONTHS ENDED JUNE 30, 2008
(Unaudited – Expressed in Canadian Dollars)

1. NATURE OF OPERATIONS AND GOING CONCERN

The Company was incorporated under the Business Corporation Act of British Columbia on November 30, 2005 as Mulligan Capital Corp. On May 16, 2006, the Company received final receipts for a prospectus and became a reporting issuer in British Columbia and Alberta. On June 27, 2006, the Company completed its initial public offering (the “Offering”) and on June 28, 2006, the Company listed its common shares on the TSX Venture Exchange (the “TSX-V”) as a capital pool company. On February 7, 2007, the Company completed its qualifying transaction (the “QT”) and was upgraded to Tier II status on the TSX-V. The Company also changed its name to Blue Sky Uranium Corp. to reflect its business as a junior uranium exploration company.

As of June 30, 2008, the Company is in the process of exploring mineral properties in Canada, Argentina and Colombia. On the basis of information to date it has not yet determined whether these properties contain economically recoverable ore reserves. The underlying value of the mineral properties and related deferred costs is entirely dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain the necessary financing to complete development and upon future profitable production. Mineral property interests represent costs incurred to date, less amounts amortized and/or written-off and do not necessarily represent present or future values.

These interim consolidated financial statements have been prepared on a going concern basis in accordance with Canadian generally accepted accounting principles (“Canadian GAAP”). The going concern basis of presentation assumes the Company will continue to operate for the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the normal course of business. The Company has incurred significant losses and negative cash flow from operations since inception. The Company has funded operations through equity financings and without additional future financings there is substantial doubt concerning the Company’s ability to continue as a going concern. Management intends to raise further financing in the future. There can be no assurance that future financing can be successfully concluded. These consolidated financial statements do not reflect adjustments to the carrying value of assets and liabilities, the reported income and expenses and balance sheet classifications used that would be necessary if the going concern assumption were not appropriate. Such adjustments could be material.

2. SIGNIFICANT ACCOUNTING POLICIES

The interim consolidated financial statements of the Company have been prepared by management in accordance with Canadian GAAP. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates. The consolidated financial statements have, in management's opinion, been properly prepared using careful judgment within reasonable limits of materiality. These interim consolidated financial statements should be read in conjunction with the most recent annual consolidated financial statements. The significant accounting policies follow that of the most recently reported annual consolidated financial statements.

New accounting policies

Effective January 1, 2008, new accounting standards were issued by the CICA which may impact the Company in the future as follows:

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

General Standards on Financial Statement Presentation

CICA Handbook Section 1400, *General Standards on Financial Statement Presentation*, has been amended to include requirements to assess and disclose a company's ability to continue as a going concern. The changes are effective for interim and annual financial statements beginning January 1, 2008. The adoption of this standard did not have an effect on the Company for the six months ended June 30, 2008.

Capital Disclosures

CICA Handbook Section 1535, *Capital Disclosures*, establishes standards for disclosing information about the Company's capital and how it is managed. Under this standard the Company will be required to disclose the following, based on the information provided internally to the Company's key management personnel:

- (i) qualitative information about its objectives, policies and processes for managing capital.
- (ii) summary quantitative data about what it manages as capital.
- (iii) whether during the period it complied with any externally imposed capital requirements to which it is subject.
- (iv) when the Company has not complied with such externally imposed capital requirements, the consequences of such non-compliance.

This standard is effective for interim and annual financial statements beginning on January 1, 2008. The adoption of this change on the disclosure in the financial statements did not have an effect on the Company for the six months ended June 30, 2008.

Goodwill and Intangible Assets

CICA Handbook Section 3064, *Goodwill and Intangible Assets*, establishes revised standards for recognition, measurement, presentation and disclosure of goodwill and intangible assets. Concurrent with the introduction of this standard, the CICA withdrew EIC 27, Revenues and Expenses, during the pre-operating period. As a result of the withdrawal of EIC 27, companies will no longer be able to defer costs and revenues incurred prior to commercial production at new mine operations. The changes are effective for interim and annual financial statements beginning January 1, 2009. The Company has not yet determined the impact of the adoption of this change on the disclosure in its consolidated financial statements.

Financial Instruments Disclosures

In March 2007, the CICA issued Section 3862 *Financial Instruments – Disclosures*, and Section 3863 *Financial Instruments – Presentation*, which together comprise a complete set of disclosure and presentation requirements that revise and enhance current disclosure requirements. Section 3862, requires disclosure of additional detail by financial asset and liability categories. Section 3863, establishes standards for presentation of financial instruments and non-financial derivatives. The standard deals with the classification of financial instruments, from the perspective of the issuer, between liabilities and equity, the classification of related interest, dividends, losses and gains, and the circumstances in which financial assets and financial liabilities are offset. The adoption of this change on the disclosure in the financial statements did not have an effect on the Company for the six months ended June 30, 2008.

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

International Financial Reporting Standards ("IFRS")

In 2006, the Canadian Accounting Standards Board ("AcSB") published a new strategic plan that will significantly affect financial reporting requirements for Canadian companies. The AcSB strategic plan outlines the convergence of Canadian GAAP with IFRS over an expected five year transitional period. In February 2008 the AcSB announced that the date for publicly-listed companies to use IFRS, replacing Canadian GAAP, is for interim and annual financial statements relating to fiscal years beginning on or after January 1, 2011. The transition date of January 1, 2011 will require the restatement for comparative purposes of amounts reported by the Company for the year ended December 31, 2010. While the Company has begun assessing the adoption of IFRS for 2011, the financial reporting impact of the transition to IFRS cannot be reasonably estimated at this time.

Comparative Figures

Certain of the prior period comparative figures have been reclassified to conform to the current period's presentation.

3. SHORT-TERM INVESTMENTS

As at June 30, 2008 Company did not hold any short-term investments. As at December 31, 2007, the Company held short-term investments comprised of the following:

	December 31, 2007	
	Maturity	Principal
		\$
12 month term deposit		
- 4.2% annual interest rate (\$1,500,000 principal)	April 28, 2008	<u>1,541,655</u>

All term deposits are fully redeemable in full or portion at the Company's option without penalty. Interest is paid on amounts redeemed subsequent to 30 days from the date of investment. The principal and interest are unconditionally guaranteed by the Bank of Montreal.

a) Eagle Lake Property

On December 14, 2006, the Company and Eagle Plains Resources Ltd. (“Eagle Plains”), a public company trading on the TSX-V, entered into an option agreement (the “Agreement”) under which Eagle Plains granted an option to the Company to earn a 60% undivided interest in Eagle Plains’ undivided 100% interest in the Eagle Lake group of mineral claims (the “Eagle Lake Property”), covering 8,165 hectares in the La Ronge area of north-central Saskatchewan, Canada.

The Company announced the amendment of the option agreements that were entered into on the Eagle Lake and Karin Lake projects dated December 14, 2006, and May 29, 2007. The parties have agreed to a \$477,000 budget for a drilling program that commenced in March 2008. The Company will issue an additional 500,000 shares to cover 50% of the cost of the drill program and paid for the remaining 50% of the drill program. The additional shares to be issued will be released at a rate of 100,000 per month beginning July 1, 2008 and ending on November 1, 2008.

The Company may maintain the option and acquire the 60% interest by issuing a total of one million shares, make total cash payments of \$35,000 and incur a minimum of \$5 million of exploration expenditures on the Eagle Lake Property as follows:

The later of the two dates in (a), (b) and (c) above was February 7, 2007, which was the effective date the Agreement was accepted by the TSXV as the Company's QT.

In addition to the above requirements, the Company must maintain the Eagle Lake Property in good standing in accordance with applicable mining laws and make any and all governmental payments required by such law including, but not limited to, annual sustaining mineral claims.

The Eagle Lake Property is subject to a 1% net smelter royalty to a third-party, which may be purchased at any time for \$1 million.

On August 22, 2008 the Company gave notice that it was terminating its option on the Eagle Lake Property. As a result, mineral property and deferred costs of \$827,389 were written off during the period.

b) **Karin Lake Property**

On February 14, 2007, the Company entered into a letter of intent with Eagle Plains (the "Karin Lake LOI") under which the Company proposed to acquire the option to earn a 60% interest in mineral claims (the "Karin Lake Property") located in the La Ronge area of north-central Saskatchewan, Canada, by issuing 50,000 common shares and paying \$107,795 cash. The Company may maintain the option by incurring a total of \$2.5 million in expenditures and issuing a total of 1,200,000 common shares, as follows:
