Leading Uranium Discovery in Argentina

Advanced Exploration at the Newest Uranium/Vanadium District in Argentina

As a leader in uranium discovery in Argentina, the Company's objective is to deliver exceptional returns to shareholders by rapidly advancing a portfolio of uranium-vanadium projects to the prefeasibility study stage, while respecting the environment, the communities, and the cultures in all the areas in which we work. The Company's flagship Amarillo Grande Project was an in-house discovery of a new district that hosts the largest NI 43-101 uranium resource in the country with an initial Preliminary Economic Assessment.
