Notes to the Condensed Consolidated Interim Financial Statements

For the six months ended June 30, 2025 and 2024

(Unaudited – Expressed in Canadian Dollars Unless Otherwise Noted)

1. NATURE OF OPERATIONS AND GOING CONCERN

Blue Sky Uranium Corp. (the “Company”) was incorporated under the Business Corporation Act of British Columbia on November 30, 2005 as Mulligan Capital Corp. On May 18, 2006, the Company received final receipts for a prospectus and became a reporting issuer in British Columbia and Alberta. On June 27, 2006 the Company completed its initial public offering and on June 28, 2006 the Company listed its common shares on the TSX Venture Exchange (the “TSX-V”) as a capital pool company. On February 7, 2007, the Company completed its qualifying transaction and was upgraded to Tier II status on the TSX-V. The Company also changed its name to Blue Sky Uranium Corp. to reflect its business as a junior uranium exploration company. The address of the Company’s registered office is Suite 411 – 837 West Hastings Street, Vancouver, BC, Canada V6C 3N6.

The Company is a natural resource company engaged in the acquisition and exploration of resource properties in Argentina. The Company’s mineral property interests presently have no proven or probable reserves and, on the basis of information to date, it has not yet determined whether these properties contain economically recoverable resources. Consequently, the Company considers itself to be an exploration stage company.

The amounts shown as mineral property interests represent acquisition costs incurred to date, less amounts amortized and/or written off, and do not necessarily represent present or future values. The underlying value of the mineral property interests is entirely dependent on the existence of economically recoverable reserves, securing and maintaining title and beneficial interest in the properties, the ability of the Company to obtain the necessary financing to advance the properties beyond the exploration stage, and the future profitability of the properties.

These condensed consolidated interim financial statements have been prepared in accordance with IFRS Accounting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) applicable to condensed consolidated interim financial statements and to a going concern, which assume that the Company will realize its assets and discharge its liabilities in the normal course of business for the foreseeable future.

The Company has experienced recurring operating losses and has an accumulated deficit of \$61,930,222 and shareholders’ deficiency of \$100,760 at June 30, 2025. In addition, the Company has a negative working capital of \$614,965 at June 30, 2025 and negative cash flow from operating activities of \$3,538,492. Working capital is defined as current assets less current liabilities and provides a measure of the Company’s ability to settle liabilities that are due within one year with assets that are also expected to be converted into cash within one year. These factors create material uncertainties that may cast significant doubt about the Company’s ability to continue as a going concern. The Company’s continued operations, as intended, are dependent upon its ability to raise additional funding to meet its obligations and commitments and to attain profitable operations. Management’s plan in this regard is to raise equity financing as required. There are no assurances that the Company will be successful in achieving these goals.

The Company’s business may be affected by changes in political and market conditions, such as interest rates, availability of credit, inflation rates, changes in laws, tariffs, and national and international circumstances. Recent geopolitical events, and potential economic global challenges such as the risk of higher inflation and energy crises, may create further uncertainty and risk with respect to the prospects of the Company’s business.

These condensed consolidated interim financial statements do not include adjustments to the amounts and classifications of assets and liabilities and reported expenses that might be necessary should the Company be unable to continue as a going concern, which could be material.

Notes to the Condensed Consolidated Interim Financial Statements

(Unaudited – Expressed in Canadian Dollars Unless Otherwise Noted)

2. MATERIAL ACCOUNTING POLICIES

Statement of compliance

These condensed consolidated interim financial statements have been prepared in accordance with IAS 34, Interim Financial Reporting and using accounting policies in full compliance with IFRS issued by the IASB, and accordingly, certain information and note disclosure included in the annual consolidated financial statements prepared in accordance with IFRS have been omitted or condensed. These condensed consolidated interim financial statements should be read in conjunction with the Company's December 31, 2024, audited annual financial statements.

Basis of preparation

These condensed consolidated interim financial statements have been prepared on a historical cost basis except for financial instruments measured at fair value. In addition, these condensed consolidated interim financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

Basis of consolidation

These condensed consolidated interim financial statements include the accounts of the Company and its wholly-owned subsidiaries as follows:

	Place of Incorporation	Principal Activity
Blue Sky Uranium Holdings Corp.	BC, Canada	Holding company
Minera Cielo Azul S.A. (Argentina)	Argentina	Exploration company
Ivana Minerales S.A. (Argentina)	Argentina	Exploration company
Desarrollo de Inversiones S.A. (Argentina)	Argentina	Exploration company
Viento de Oro S.A. de C.V. (Mexico)	Mexico	Exploration company

Inter-company balances and transactions, including unrealized income and expenses arising from inter-company transactions, are eliminated in preparing the condensed consolidated interim financial statements.

Subsidiaries are all entities (including structured entities) over which the group has control. The group controls an entity when the group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are fully condensed consolidated interim from the date on which control is transferred to the group. They are deconsolidated consolidated interim from the date that control ceases.

Significant Accounting Estimates and Judgments

The preparation of these condensed consolidated interim financial statements requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of expenses during the reporting period. Actual outcomes could differ from these estimates.

Notes to the Condensed Consolidated Interim Financial Statements

2. MATERIAL ACCOUNTING POLICIES (continued)

These condensed consolidated interim financial statements include estimates which, by their nature, are uncertain. The impacts of such estimates are pervasive throughout the condensed consolidated interim financial statements and may require accounting adjustments based on future occurrences. Revisions to accounting estimates are recognized in the period in which the estimate is revised and future periods if the revision affects both current and future periods. These estimates are based on historical experience, current and future economic conditions and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Significant assumptions about the future and other sources of estimation uncertainty that management has made at the financial position reporting date, that could result in a material adjustment to the carrying amounts of assets and liabilities, in the event that actual results differ from assumptions made, relate to, but are not limited to, the following:

Critical accounting judgments

- i. Presentation of the condensed consolidated interim financial statements which assumes that the Company will continue in operation for the foreseeable future, obtain additional financing as required, and will be able to realize its assets and discharge its liabilities in the normal course of operations as they come due.
- ii. The analysis of the functional currency for each entity of the Company involves significant judgement by management. In concluding that the Canadian dollar is the functional currency of the parent and its subsidiary companies, management considered the currency that mainly influences the cost of providing goods and services in each jurisdiction in which the Company operates. As no single currency was clearly dominant the Company also considered secondary indicators including the currency in which funds from financing activities are denominated and the currency in which funds are retained.
- iii. The net carrying value of each mineral property is reviewed regularly for conditions that suggest impairment or a reversal of previously recorded impairment. This review requires significant judgment. Factors considered in the assessment of asset impairment include, but are not limited to, whether there has been a significant adverse change in the legal, regulatory, accessibility, title, environmental or political factors that could affect the property's value; whether there has been an accumulation of costs significantly in excess of the amounts originally expected for the property's acquisition, development or cost of holding; and whether exploration activities produced results that are not promising such that no more work is being planned in the foreseeable future. If impairment is determined to exist, a formal estimate of the recoverable amount is performed and an impairment loss is recognized to the extent that the carrying amount exceeds the recoverable amount.

Critical accounting estimate

- i. The Company is from time to time involved in pending or threatened litigation relating to claims arising in the ordinary course of its business. The nature and progression of litigation can make it difficult to predict the impact a particular lawsuit or claim will have on the Company.

2. MATERIAL ACCOUNTING POLICIES (continued)

New and amended IFRS standards that are effective for the current period:

Amendments to IAS 21, Lack of Exchangeability (effective January 1, 2025) requires companies to provide more useful information in their financial statements when a currency cannot be exchanged into another currency. The amendments respond to stakeholder feedback and concerns about diversity in practice in accounting for a lack of exchangeability between currencies. The amendments will help companies and investors by addressing a matter not previously covered in the accounting requirements for the effects of changes in foreign exchange rates. These amendments will require companies to apply a consistent approach in assessing whether a currency can be exchanged into another currency and when it cannot, in determining the exchange rate to use and the disclosures to provide. This amendment did not have any impact on the Company's condensed consolidated interim financial statements.

New Accounting Standards and Interpretations not yet effective

The following new standards, amendments and interpretations have been issued but are not effective for the fiscal six months ended June 30, 2025, and accordingly, they have not been applied in preparing these condensed consolidated interim financial statements.

IFRS 18, Presentation and Disclosure in Financial Statements introduces three sets of new requirements to give investors more transparent and comparable information about companies' financial performance for better investment decisions.

- i. Three defined categories for income and expenses—operating, investing and financing—to improve the structure of the income statement, and require all companies to provide new defined subtotals, including operating profit.
- ii. Requirement for companies to disclose explanations of management-defined performance measures (MPMs) that are related to the income statement.
- iii. Enhanced guidance on how to organize information and whether to provide it in the primary financial statements or in the notes.

This new standard is effective for reporting periods beginning on or after January 1, 2027, the Company is evaluating if this amendment will have any impact on the Company's condensed consolidated interim financial statements.

3. MINERAL PROPERTY INTERESTS

The schedules below summarize the acquisition costs and all exploration expenditures incurred to date for each mineral property interest that the Company holds title to and is continuing to explore as at June 30, 2025:

5. SHARE CAPITAL AND RESERVES (continued)

Share Subscriptions Received

At June 30, 2025, the Company had received \$21,000 towards the third and final tranche of its non-brokered private placement announced on June 5, 2025 (See also Note 14).

Share Purchase Option Compensation Plan

The Company has a share purchase option plan (the “Plan”) approved by the Company’s shareholders that allows it to grant share purchase options, subject to regulatory terms and approval, to its officers, directors, employees and service providers for a maximum term of ten years. The Plan is based on the maximum number of eligible shares equaling a rolling percentage of 10% of the Company’s outstanding common shares, calculated from time to time. If outstanding share purchase options are exercised or expire, and/or the number of issued and outstanding common shares of the Company increases, then the share purchase options available to grant under the Plan increase proportionately.

The exercise price of each share purchase option is set by the Board of Directors at the time of grant but cannot be less than the market price less allowable discounts in accordance with the policies of the TSX Venture Exchange. Share purchase options granted generally vest immediately, are subject to a four-month hold period and are generally exercisable for a period of ten years.

6. RELATED PARTY BALANCES AND TRANSACTIONS

Grosso Group Management Ltd.

On April 1, 2010, the Company entered into a Management Services Agreement (“Agreement”) with Grosso Group Management Ltd. (“Grosso Group”) to provide services and facilities to the Company. Grosso Group is owned by Joseph Grosso. Grosso Group provides its member companies with administrative and management services. The member companies pay monthly fees to Grosso Group on a cost recovery basis. The fee is based upon a pro-rating of Grosso Group’s costs including its staff and overhead costs among the member companies. The fee is reviewed and adjusted quarterly based on the level of services required. The Agreement expires on December 31, 2026 and is automatically renewed for a period of two years pursuant to the terms of the Agreement.

6. RELATED PARTY BALANCES AND TRANSACTIONS (continued)

The Company borrowed \$116,000 from the CEO of the Company during the six months ended June 30, 2025 (year ended December 31, 2024 - \$105,000), for working capital purposes and was non-interest bearing. During the six months ended June 30, 2025, the Company repaid the principal balances of \$221,000 for all of the Company's loans received. See also Note 4.

7. BASIC AND DILUTED LOSS PER SHARE

The calculation of basic and diluted loss per share for the six months ended June 30, 2025, and 2024 was based on the following:

	Three months ended June 30,		Six months ended June 30,	
	2025	2024	2025	2024
Loss attributable to common shareholders (\$)	2,138,103	997,218	2,935,671	1,601,869
Weighted average number of common shares outstanding	336,543,927	270,896,652	318,698,553	263,113,835

Diluted loss per share did not include the effect of 11,750,000 (June 30, 2024 – 11,750,000) common share purchase options and 213,199,549 (June 30, 2024 – 155,386,434) common share purchase warrants as they are anti-dilutive. Diluted loss per share is rounded to the nearest penny.

8. MARKETABLE SECURITIES

From time to time, the Company may acquire and transfer marketable to facilitate intragroup funding transfers between the Canadian parent and its Argentine operating subsidiaries. The Company does not acquire marketable securities and engage in these transactions for speculative purposes. In this regard, under this strategy, the Company generally uses marketable securities of large and well-established companies with high trading volumes and low volatility. Nonetheless, as the process to acquire, transfer and ultimately sell the marketable securities occurs over several days, some fluctuations are unavoidable. As the marketable securities are acquired with the intention of a near term sale, they are considered financial instruments that are held for trading, all changes in the fair value of the instruments between acquisition and disposition are recognized through profit or loss. The subsequent disposition of these marketable securities in exchange for Argentine pesos gave rise to a gain as the amount received in Argentine peso exceeds the amount of Argentine peso the Company would have received from a direct foreign currency exchange.

As a result of having utilized this mechanism for intragroup funding for the six months ended June 30, 2025, the Company realized a gain of \$25,123 (June 30, 2024 – \$226,881) from the favorable foreign currency impact.

9. OPERATING SEGMENTS

The Company is primarily involved in mineral exploration activities in Argentina. The Company is in the exploration stage and, accordingly, has no reportable segment revenues or operating revenues for the six months ended June 30, 2025.

10. COMMITMENTS

Earn-In Agreement

On November 29, 2024, the Company entered into a definitive earn-in agreement (the "Earn-In Agreement") with Abatare Spain, S.L.U. ("COAM") and ACI Capital S.à r.l, as guarantor (the "Guarantor"), pursuant to which the Company and its wholly owned subsidiaries Minera Cielo Azul S.A. ("MCA") and Ivana Minerals S.A. ("JVCO" and together with MCA and the Company, the "BSK Entities"), have granted to COAM the sole and exclusive right to acquire up to an 80% indirect interest in the Ivana Uranium-Vanadium Deposit located in the Province of Rio Negro, Argentina (the "Property", see also Note 3), to be effected by way of an 80% equity interest in JVCO, subject to the terms and conditions set forth in the Earn-In Agreement (the "Transaction").

The initial closing of the Transaction was subject to the Company: (a) within 120 days following the effective date of the Earn-In Agreement, transferring all of its JVCO common shares to MCA; and (b) obtaining all necessary: (i) regulatory approvals, including, the conditional approval of the TSX-V, and (ii) corporate approvals, including the approval of the shareholders of the Company, in connection with the transactions contemplated herein. As the shareholder approval did not occur until after year-end, the transaction is a subsequent event.

Under the terms of the Earn-In Agreement, COAM has been granted (i) a right (the "P&E Ownership Interest") to acquire a 49.9% indirect equity interest in the Property by funding cumulative expenditures of US\$35 million and (ii) upon completion of a feasibility study, a right (the "Development Earn-In Right") to acquire up to an 80% equity interest in JVCO by funding the costs and expenditures to develop and construct the project to commercial production, subject to the terms and conditions in the Earn-In Agreement.

Pursuant to the Earn-In Agreement:

- i. to acquire the P&E Ownership Interest, COAM must make capital contributions to JVCO in the aggregate amount equal to US\$35,000,000 within 36 months (the "P&E Earn-In Period") including a minimum funding of (i) US\$3,000,000 in the first year (ii) US\$5,000,000 in the second year; (iii) US\$7,000,000 in the third year; and (iv) non-interest bearing irrevocable capital contributions of US\$20,000,000 (the "Exploration Contribution") over the P&E Earn-In Period.
- ii. during the P&E Earn-In Period, unfunded minimum annual commitments are subject to annual corporate guarantees;

10. COMMITMENTS (continued)

- iii. to exercise the Development Earn-In Right:
 - a. COAM must on or before the expiry of the P&E Earn-In Period, deliver to MCA a commitment (the “Development Commitment”) to develop and construct the project to either (i) large-scale commercial production as set out in the NI 43-101 Feasibility Study (a “Feasibility Decision”) or (ii) small-scale commercial production, provided it is economics positive as supported by a NI 43-101 Feasibility Study (an “Initial Start Decision”); and
 - b. the Guarantor must deliver to JVCO a corporate guarantee (i) in the event COAM makes an Initial Start Decision, with respect to the costs and expenses for development and construction to reach small-scale commercial production at the project and (ii) in the event COAM makes a Feasibility Decision, with respect to COAM’s commitment to contribute the costs and expenses for development and construction to reach large-scale commercial production at the project (the “Development Feasibility Amount”), in each case, not to exceed US\$160,000,000, through capital contributions to JVCO; and
 - c. upon making the Development Commitment and delivering the corporate guarantee, COAM will acquire a 50.1% equity interest in JVCO.
- iv. COAM will acquire an 80% equity interest in JVCO upon the earlier of: (i) making capital contributions to JVCO equal to the Development Feasibility Amount and (ii) the commencement of large-scale commercial production at the project (the “Commencement of Commercial Production (Feasibility)”);

JVCO granting MCA a 2.0% royalty on the Exploration Targets acquired under the Call Option.

- vii. The parties will also enter into a shareholders' agreement (the "Shareholders' Agreement") that will govern the relationship among the parties in respect of JVCO and the Property, including, among other things:
- the governance of JVCO and the management of the Property;
 - the funding obligations of COAM and MCA in respect to JVCO and the Property;
 - rights of first offer, share transfer restrictions, pre-emptive rights and tag-along rights in respect to the shares of JVCO; and
 - if MCA's equity interest is diluted to less than 10%, there is an automatic surrender of MCA's interest in exchange for a 2% royalty on the Property.

During the six months ended June 30, 2025, the Company's shareholders voted in favour of the Earn-In Agreement and the Company completed the initial closing of the Earn-In transaction. As part of the initial stage of the Earn-In Agreement, JVCO received US\$650,000, and the Company received the first corporate guarantee of US\$2,350,000 for a combined total of US\$3,000,000 from COAM, corresponding to the first-year minimum funding commitment. JVCO and MCA entered into a call option agreement and shareholders' agreement. The Company has recorded a \$932,035 obligation to issue shares for COAM's total contributions to JVCO as of June 30, 2025 (2024 - \$Nil).

Financial Advisory Services Agreement

On August 1, 2023, the Company entered into an agreement (the "ACP Agreement") with ACP Capital Markets LLC ("ACP") to provide financial advisory services. In consideration for the services, the Company has paid US\$50,000, and a progress fee of US\$50,000 is payable on the date of letter of intent. Upon closing of a transaction with a purchaser identified by ACP, the Company shall pay a success fee of 2.5% of the consideration received no less than US\$450,000. The Company and ACP are unrelated and unaffiliated entities. The agreement remains in effect until terminated by one of the parties. The success fee is also payable to ACP in the event of closing of a transaction within 12 months after termination of this agreement.

On September 20, 2023, the Company entered into an agreement (the "SCP Agreement") with Yaderay S.A. ("SCP") to provide financial advisory services for a term of 12 months. The Company and SCP are unrelated and unaffiliated entities. In consideration for the services, the Company shall pay 5% of the gross proceeds received from purchasers identified by SCP, subject to TSX-V approval.

10. COMMITMENTS (continued)

The Company engaged ACP and SCP as joint financial advisors in connection with the Earn-In Agreement. On January 7, 2025, the Company entered into a new fee agreement (the “Fee Agreement”) with ACP and SCP that replaces the ACP Agreement and SCP Agreement. The compensation terms of the Fee Agreement are:

- i. Pay a US\$225,000 advisory fee to each of ACP and SCP on initial closing of the Earn-In Agreement;
- ii. Upon each subsequent closing during the P&E Earn-In Period (each, a “P&E Subsequent Closing”), a cash payment equal to 2.5% of COAM’s contributions (including Exploration Contributions as defined below) capitalized at such P&E Subsequent Closing, provided that such fee shall only apply to aggregate contributions in excess of US\$9,000,000;
- iii. A cash payment equal to 2.5% of COAM’s contributions towards acquiring, exploring, and developing the Exploration Targets (“Exploration Contributions”) incurred after the P&E Earn-In Period; and
- iv. Upon each closing following the P&E Earn-In Period (each, a “Development Closing”), a cash payment equal to 1.50% of the contributions (excluding Exploration Contributions) capitalized by COAM at such Development Closing and the amount of any disbursements to JVCO pursuant to any debt financing provided or procured by COAM pursuant to the Shareholders’ Agreement.

The Fee Agreement and its terms were approved by the TSX-V and the Company paid US\$225,000 each to ACP and SCP during the six months ended June 30, 2025.

Management Services Agreement

Grosso Group provides its member companies with administrative and management services. The member companies pay monthly fees to Grosso Group on a cost recovery basis. The fee is based upon a pro-rating of Grosso Group’s costs including its staff and overhead costs among the member companies. The current fee is \$5,000 per month. This fee is reviewed and adjusted quarterly based on the level of services required.

The table below represents the Company’s aggregate commitment to Grosso Group over the term of the Management Services Agreement.

	1 Year	2 Years	3 Years	4-5 Years	More than 5 Years

11. CONTINGENCY

A former employee and consultant to the Company is claiming to be owed severance in Argentina. The Company believes the amount of severance being claimed by the former employee and consultant is excessive and is disputing the amount. The actual amount of severance is still being negotiated and may be material to the Company.

13. FINANCIAL INSTRUMENTS AND CAPITAL MANAGEMENT

The Company thoroughly examines the various financial instrument risks to which it is exposed and assesses the impact and likelihood of those risks. These risks may include credit risk, liquidity risk, currency risk, and interest rate risk. Where material, these risks are reviewed and monitored by the Board of Directors.

13. FINANCIAL INSTRUMENTS AND CAPITAL MANAGEMENT (continued)

(a) Fair Values

The Company's financial instruments recorded at fair value require disclosure about how the fair value was determined based on significant levels of inputs described in the following hierarchy:

Level 1 - Quoted prices are available in active markets for identical assets or liabilities as of the reporting date. Active markets are those in which transactions occur in sufficient frequency and value to provide pricing information on an ongoing basis.

Level 2 - Pricing inputs are other than quoted prices in active markets included in Level 1. Prices in Level 2 are either directly or indirectly observable as of the reporting date. Level 2 valuations are based on inputs including quoted forward prices for commodities, time value and volatility factors, which can be substantially observed or corroborated in the marketplace.

Level 3 - Valuations in this level are those with inputs for the asset or liability that are not based on observable market data.

The Company's financial instruments consist of cash and cash equivalents, marketable securities, accounts payable and accrued liabilities, and loans payable. Cash and cash equivalents, and marketable securities are measured at fair value through profit or loss using level 1 inputs.

(b) Financial Instrument Risk Exposure

Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. Financial instruments that potentially subject the Company to credit risk consist of cash and cash equivalents. The Company has reduced its credit risk by depositing its cash and short-term investments with financial institutions that operate globally. Therefore, the Company is not exposed to significant credit risk and the Company's overall credit risk has not changed significantly from the prior period.

Liquidity risk

Liquidity risk is the risk that the company will not be able to meet its financial obligations as they fall due. The Company has in place a planning and budgeting process to help determine the funds required to ensure the Company has the appropriate liquidity to meet its operating and growth objectives. The Company has historically relied on issuance of shares and warrants to fund exploration programs and may require doing so again in the future. See Note 1 for further information.

Market risk

(i) *Currency risk*

Financial instruments that impact the Company's net earnings due to currency fluctuations include: cash, and accounts payable all denominated in United States dollars and Argentinean pesos. A 10% change in US dollar and the Argentinean peso exchange rates relative to Canadian dollar would have insignificant impact on the Company's net loss:

- A 10% change in the US dollar exchange rate relative to the Canadian dollar would change the Company's net loss by approximately \$13,500.

13. FINANCIAL INSTRUMENTS AND CAPITAL MANAGEMENT (continued)

- A 10% change in the Argentinean peso exchange rate relative to the Canadian dollar would change the Company's net loss by approximately \$32,500.

(ii) Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate due to changes in market interest rates. The fair value of cash and cash equivalents approximates its carrying value due to the immediate or short-term maturity of this financial instrument. Other current financial assets and liabilities are not exposed to interest rate risk because they are non-interest bearing or have prescribed interest rates.

(c) Capital Management

The Company's objectives of capital management are intended to safeguard the entity's ability to support the Company's normal operating requirements on an ongoing basis, continue the development and exploration of its mineral properties and support any expansionary plans. The capital structure of the Company consists of equity attributable to common shareholders, comprised of issued capital, reserves and deficit. The Company manages the capital structure and makes adjustments in light of changes in economic conditions and the risk characteristics of the Company's assets.

To effectively manage the entity's capital requirements, the Company has in place a planning and budgeting process to help determine the funds required to ensure the Company has the appropriate liquidity to meet its operating and growth objectives. The Company has historically relied on issuance of shares to develop its mineral projects and may require doing so again in the future. The Company is monitoring market conditions to secure funding at the lowest cost of capital. The Company is exposed to various funding and market risks which could curtail its access to funds. The Company is not subject to any external covenants. There were no changes in the Company's approach to capital management during the six months ended June 30, 2025.
